

Formula Shell High Mileage

These Formula Shell oils are for customers that own vehicles with 75,000 miles or more. Shell Formula High Mileage formula Motor Oils are available in two viscosities, 10W-30 and 10W-40. Check the data sheet and note that these motor oils are formulated specially for high mileage vehicles: their viscosities (cSt) at 40C and 100C are higher than most standard oils; their flash points are relatively high; and, their API certification is SL. These motor oils are “hardier” than most other mineral oils. If your vehicle is burning a little oil, leaking some, or exhibiting increasing engine noise, these oils will help improve these problems.

Formula SHELL HIGH MILEAGE FORMULA motor oils are formulated for engines with 75,000 miles and more. These motor oils provide extra protection to extend the life of your engine. Shell Formula High Mileage Formula Oils meet or exceed all automobile and light duty truck requirements for gasoline engines where an SAE 10W-30 or SAE 10W-40 motor oil is recommended. These motor oils are API Certified SL, SJ and can be used in place of SJ, SH, and SG rated oils.
